FROM CRAFTY PRINCESS TO STAR WARS PRINCESS

Bought by Disney for over 2.5 billion from Lucas Films, the Star Wars franchise is set to hit our screens in 2015 and here at **Crafty Arty World we will be watching and cheering on **Daisy Ridley**.**

Rumours abound that before Star Wars, Daisy was a Crafty Arty Princess in between other acting roles and Bafta nominations and YES the rumour is true, Daisy was a Crafty Princess and an excellent one at that!

After a world wide casting search, Daisy signed to UTA, won the female lead in the J.J Abrams directed movie Star Wars V11 and will carry through to the second and third films too. Other cast members include Mark Hamill, Carrie Fisher, Harrison Ford, Anthony Daniels, Lupita Nyong'o, Gwendoline Christie, Kenny Baker and Max von Sydow.

You will all just have to wait and see exactly which role Daisy will play when the film, set to debut in December 2015, hits the big screen. I am sure the 'Crafty Arty Force' will be with her!
